

La Welding Technology è un'azienda che produce principalmente macchinari ed accessori per procedimenti di saldatura in arco sommerso e vanta l'esperienza trentennale del titolare in tale settore.

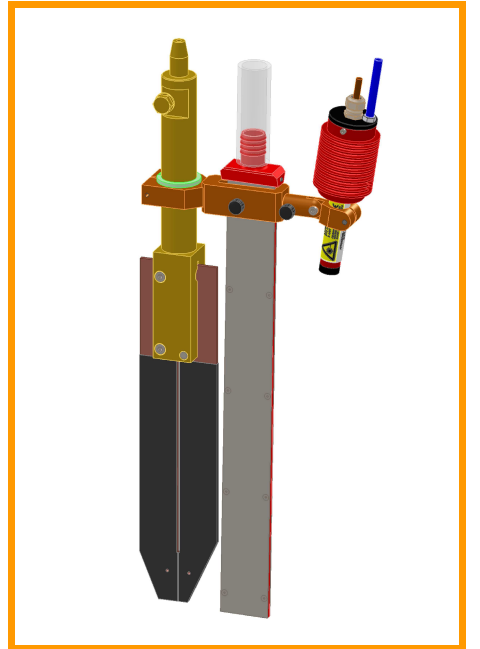

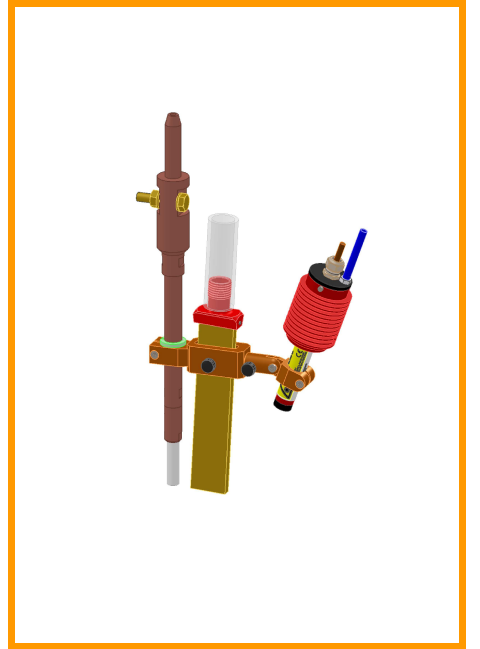

Ogni prodotto è pensato, studiato e progettato al suo interno.

L'azienda dispone di una sua officina meccanica, dove vengono realizzati la maggior parte dei componenti.

Il nostro obiettivo principale è la continua ricerca di soluzioni idonee a migliorare l'esecuzione del processo di saldatura studiando e realizzando miglioramenti continui per il cliente.
